Urea (AdBlue®)

9.58020

9.58021

9.58022

DT Spare Parts AdBlue is a urea solution for diesel engines with SCR exhaust emission treatment that aids in the reduction of nitrogen oxide in diesel engines, thus fulfilling the ever stricter, legally stipulated exhaust emission standards. The SCR technology (selective catalytic reduction) is based on a catalytic reaction in which harmful nitrogen oxide is reduced to harmless substances, nitrogen and water, via a reducing agent (urea).

Specifications:

- ISO 2241
- DIN 70070
- AUS 32

AdBlue® is a registered brand of the VDA (Verband der Automobilindustrie e.V. - German Association of the Automotive Industry).

Information is subject to change without notice. The vehicle manufacturer's specifications apply respectively. More information can be found on the safety data sheet.

- 9.58020 - Canister, 10L
- 9.58021 - Canister, 20L
- 9.58022 - IBC, 1.000L
